

## North Wiltshire Orienteers (NWO)

Affiliated to the British Orienteering Federation and a member of the South West Orienteering Association.

Web: [www.northwilts.org.uk](http://www.northwilts.org.uk)

### Urban League 2021

Coordinator: John Orton, email – [urbanleague@northwilts.org.uk](mailto:urbanleague@northwilts.org.uk)

Please state your **NAME** and **COURSE** (Long, Medium, or Short) in all emails to the coordinator

#### The League this Year

A new course will be available every two weeks. To be included in the league you must complete the course at any time you choose within two weeks of the release date and report the course answers and your run time to the series coordinator. We are relying on your honesty in completing your course and reporting your results.

The course may continue to be available after the two week period but if you complete it later your result will not be included in the league.

You take part entirely at your own risk. Juniors under 16 can take part but must be accompanied by a responsible adult. You must participate either on your own or in a group compliant with current public health (Coronavirus) regulations. You must comply with any other Coronavirus regulations including those regarding travel.

#### The Series

These very informal urban orienteering sessions are open to everyone including beginners, families and more experienced orienteers. Entry is free of charge. There will be three courses (trails) available (short, medium and long, approximately 2.5km, 4km and 6km) in the form of a treasure hunt. You will get a special orienteering map showing streets (but not street names), open spaces and any parkland in one of the North Wiltshire towns. The map will show the position of a series at checkpoints. Each checkpoint will be at a street feature which will have an easy to answer clue to prove you have been there. Examples are the number on a lamp post, the telephone number on the shop front or the number of bollards at the end of the road. You may use an alternative method using the mobile phone app **MapRun** which tracks your route and registers your arrival at control points

Points will be awarded for each session according to your position. The total of your best seven scores will be your result for the series.

The start location will be given on the NWO website under Fixtures. There will be no toilet provision unless otherwise stated.

#### Course Format

For an explanation of street orienteering see [here](#) . All courses will have the option of completing written clues. If you use MapRun the app will automatically record your arrival at each control and will check that you have successfully completed the course when you finish.

#### What to wear and bring?

Come in trainers or similar with clothing to suit ease of movement and appropriate to the weather. Shorts and vests are permitted.

## Dates and Venues

Check our website [www.northwilts.org.uk](http://www.northwilts.org.uk) to confirm the location, and how to acquire maps and other information about individual sessions.

The programme may be subject to modification so please check for latest details on our website
